Wood-House. 1683.

A Prognostication, for the year of our Lord God, 1683.

Being the third from the *Bissextile*, or Leap-year; and from the Worlds Creation 5632.

Wherein is contained a brief description of the four Quarters of the Year; excellent Notes of Husbandry and Gardening, for every month in the Year.

With the Names of all the Principal Fayrs, And a Description of the High-Ways in *England* and *Wales*.

BY
JOHN WOOD-HOUSE,
Philomath.

LONDON,
Printed by *J. M.* for the Company of Stationers, 1683.

When you would plant or graft, consider where the wind bloweth; if it be in the South, it is very good for that purpose, but if it be in the North or East, it is not good.

It is good to plant or graft generally the Moon increasing in these signs, Taurus or Aquarius in the beginning of the Spring, or latter end of Harvest.

Plant trees for continuance, when the Moon is in Taurus, Leo, or Aquarius.

Cut timber to have it sound, in December, or January, in the Wane of the Moon in Aquarius or Pisces.

Prune trees and pull off the moss in the month of January.

Plash hedges and lop trees for fuel, that the heads may the sooner grow again, when the Moon is in Aries or Libra, and in her increase.

Set young quick-sets, from September to March.

Remove young trees in the last quarter of the Moon, when she is in Aries, Libra, Scorpio: and in these months, September, November, February.

Set vines in February, March, or September, specially the Moon in Aries, Libra, Scorpio, in her increase.

Set Rose-trees in the midst of February, when the Moon increaseth.

Cut or prune trees in March or April, the Moon in Taurus, Virgo, or Capricorn.

Gather fruit, as Apples, Pears, and the like, at the full of the Moon, in the afternoon, the weather being fair and dry.

Cut down Hay presently after the full of the Moon.

Dung ground to prevent the growing of weeds, the Moon decreasing.

Sow Carret-seeds about the end of February or the beginning of March, the Moon increasing.

Sow Onions and Leeks in February or March, at the wane of the Moon.

Set Cucumbers and Melon seed, not above one inch in depth, from the first of April to the 20 in the increase of the Moon.

A Table of the distance, &c. of some of the most famous Cities in the world from the honourable City of *Lond.* A stands for sun rise. before it doth with us p aft.

Excellent Notes of Husbandry and Gardening, for every Month in the Year.

IN January cut down Timber (and it shall not chinb nor be eaten with worms) in the last quarter of the Moon set or sowe Kernels, and Berries of Bay-trees, Privet, and Box. Set Quick-sets, Rose-trees, Peaches, Filberds and Plum-trees; and remove trees if the frost be not too hard, prune and top them before full Moon; sowe or set Beans and Peale, and dung land in the last quarter: geld Cattel to rear, fallow land for Wheat and Rye: Trench Gardens with dung, and remove Bees, and for your own health, keep your body warm, let good and wholesome diet be your Physician, moderate exercise and labour: your labour to cause appetite.

February.

NOw sowe all sorts of Peale and Beans, and other Pulse, sow Mustard-seed, cast up ditches, set and plant Vines, Hops, Gooseberries, and any fruit that grows upon bushes, prune and trim all sorts of fruit-trees from mos, canker, and all superfluous Branches. Graft in the latter end of the month, sowe Onyons in cold stiff land: Take heed of cold, forbear flegmatick meats.

March.

IN the new of the Moon (the wind any but West or South) graft Pear, Warden, or Apple-trees, make an end of sowing all manner of Pulse, and begin to sowe Oats, Barley, Parsenips, Onyons, Carrets,

carrets, Cucumbers, Melons, and all kind of Potherbs, slip Artichokes and Sage, geld Lambs, let Bees accoyding to strength and necessity, the Sun and weather also being fit (but take advice of the learned Physician) look what disease cannot be cured in the Spring time by physick, will hardly be cured all the year after.

April.

Sow Barley, Hemp, and Flax, pole Hops, let and sowe all kinde of Garden herbs, open Hives, and let Bees labour for their living, let Tanners also provide them for Bark, and all good Housewifes look to their Dairies; bleed and purge with advice; those that are troubled with aches, or the gout, let them go to the Baths in this or either of the months.

May.

Sow Barly on all light lands and bearing grounds and likewise Hemp and Flax, and all manner of fine seeds and herbs, take Lambs from their Dams, fit land for Wheat and Rye, leave lopping of Trees, reach Hops to climb, but cut off the superfluous branches, rise early, walk the fields, especially by running streams, Sage and sweet Butter is now an excellent breakfast, Sage and clarified whey, as also Scurvy-grass-Ale, and Mozambeck Beer, are wholsom drinks to be drunk fasting.

June.

Shear Sheep, bring home fuel, weed Corn and Gardens, set Rosemary, Carnations, and Gilliflowers, sow Lettuce and Radish-seed three or four days after the full, for then they will not run to seed, make hay, carry Sand, Lime, Marl, and Manure, of what kind soever befitting your land, cut neither hedge nor Tree in this and the two next months, beware of great thirst, use thin and light Diet, moderate exercise, and chaste thoughts.

July.

Apply making and getting in of hay, pull Hemp that is ripe, gather Garden Beans, get Rue and Mozimwood, and Saul to strew on your floors, to destroy Moths and Fleas, fence your Copses, use moderate diet, take heed of great thirst, for nothing bringeth the Pestilence, or pestilent diseases sooner, then extream thirst, and fervent heats, and cold taken also suddenly upon them: Take no physick, bleed not but upon all violent occasions.

Labour in Summer, take pains with the Ant,
Else in the Winter live poor, and in want.

August.

Follow close your Corn-harvest, sowe Winter herbs in the new of the Moon, gather Garden-seeds, mowe Barly and Oats, gather Summer fruits, refrain from sleeping in the day time after meat, avoid riot and excess.

September.

In the beginning of this month, and end of the former, gather Hops when they way brown, the weather being fair, and no dew on the ground, kill Bees, make Verjuice, sowe Wheat and Rye, remove and set all slips of flowers between the two Lady-days, put Swine to Mast, remove Trees every new Moon, from September until February, especially in the new of the Moon, the weather fair and warm, the wind South or West: use Physick moderately, for-bear fruits too pleasant, or rotten, shun riot, and excess of diet.

October.

Sow Wheat and Rye, the sooner the better, for fear of rain, set Acorns and Nuts, gather Winter fruit, the weather dry, in the afternoon, and in the wane of the

the Moon. Cut Mole-trees, if you desire to have store of Moles, do this once in two years, refuse not any needful physick at the hands of the learned, and use all moderate sports to revive the vital spirits to the service of God only.

November.

MAke Vault, kill Hogs, trench Gardens with dung, set Crab-tree stocks, sowe Wheat and Rye in exceeding hot sandy grounds, cut down Timber for Ploughs, Carts, and other implements for husbandry, use wholsome meat and drink, with good exercise to preserve health.

December.

IN this and the next moneth, cut down Timber in the last quarter of the Moon, uncover the roots of fruit-trees, set Beans and Peale, cover all your best flowers and herbs from frosts and storms, with old rotten horse-dung, look well to your cattel, water and keep moist your meadows, let horses bleed, and to conclude, drink good Wine and strong drink, keep thy body warm clad, thy house warm and dry, banish all cares from thy heart, and feast thy poor neighbours, rejoycing that God sent his only begotten Son about this time into the world, to save all such that lay hold on him with a true and lively faith.
